

May 16th Speakers Series Questions from the Chat

Is the gage that is currently placed in Elephant Butte going to change to some place on the border of El Paso?

For Hannah- Can EPA allocation \$127 million for water infrastructure be used for regional water planning?

Is there a plan for the Gila watershed?

All this allocations of money from the legislature, who or what can get access to some of this money?

What is the current USGS eval of the quantity of groundwater in the Middle Rio Grande? How does it line up with supply and growth projections?

How will the SCOTUS Special Master Consent Decree Supporting the Rlo Grande Compact affect water management on the Rlo Grande.

I didn't find your goals and objectives for all these meeting(s). If they do exist, I would like to know _

Q for Hannah -- SB329 (Sen Mimi Stewart) sounds like a good idea, but my look at the NMLegis website just now is that it did not even make it for a vote on the Senate floor, let alone become law. Was it funded, however, in the final form of HB2?

How do we convince legislators that funding for planning is critical?

Is the Supreme Court going to hear this [LRG] case to accept the consent degree?

Does this address where & when does the inevitable need for all residential & commercial sites to reduce water use?

What does planning mean? What do you envision the outcome of good planning looking like in 50 years?

We owe Texas about 93,000, 000 acre ft of water and we have a tremendous amount of water going down the stream to Texas. Who has the authority to determine how much water is paid to Texas?

Thanks so much Hannah, this is incredibly helpful. wondering how you envision capacity building playing out through SB 337. Thank you!
