

The 12th Annual Water Assembly  
June 14, 2008

**Subprime Water Crisis**

Recommendations from Plenary Discussion  
Carl Moore, facilitator

Plenary Discussion

- What would be an effective bailout for our subprime water crisis?
- Where Can We Be Most Effective? Narrowing Our Focus

**Annual Meeting Recommendations**

*First set of numbers refer to list from chalk board, with second set of numbers referring to votes.*

- |   |     |   |
|---|-----|---|
| 2 | 1.  | Focus on good news (progress made toward meeting the goals and recommendations set forth in the regional water plan). |
| 5 | 2.  | Provide legislature with authoritative information  |
| 8 | 3.  | Ask legislature to provide adequate funding for regional water planning.  |
| 3 | 4.  | Ask legislature and OSE to expedite completion and implementation of adjudication                                     |
| 1 | 5.  | Ensure continued active, ongoing citizen participation in water planning.   |
| 6 | 6.  | Articulate policy improvements regarding water transfers (esp., agriculture to urban).                                |
| 1 | 7.  | Work to close the gap between water right ownership and water users (or uses?)  |
| 3 | 8.  | Create a template for how to effectively deal with updates to the Regional Water Plan.                                |
| 5 | 9.  | Meet to identify common interest with the Six Middle Rio Grande Pueblo Coalition for Water Planning                   |
| 1 | 10. | Change OSE administrative guidelines to cease mining and live sustainably per RWP                                     |
| 6 | 11. | Grow the assembly and fine-tune the structure to meet the challenges.   |
| 5 | 12. | Develop a regional water budget in a way that can be apportioned to local entities.                                   |

- 6 13. Consummate hydrographic survey, facilitate cooperation between the OSE and MRGCD in this.
- 4 14. Assembly work with UNM Water Resources Program (e.g., film series, refined water budget, etc.).
